

President Gail's executive order on Biden's speech about vaccine mandates on Sept. 9, 2021:

Just listened to Biden's speech. I think he should be publicly executed on Gabrielle Chana FOX News. He's really going to town with vaccine mandates. We should also make an announcement that our Linux phones will personally execute anyone who tries to get anyone to get the COVID jab.

The Linux phones will scan anyone who tries to enforce Biden's mandates and will send in the military to take the person out and will also possibly do the execution itself.

Any court house that tries to enforce Biden's mandates will be bombed.

If we can't find him, we will say that we have a warrant for his arrest and when he's caught, he will be publicly executed.

The ONLY way he can get out of this, is if he goes on public television and recants everything he said today on the news about vaccine mandates. I don't think he'll do this, so he needs to be EXECUTED. Further, we will sue his entire administration for war crimes against the human race and require any government person who supports these evil mandates to pay at least a million dollars in damages to victims of the COVID vaccine. We also need to be sure we start Nuremberg War Crimes Tribunals NOW.

I expect Loree McBride to replace him with a clone, if we execute him. When that happens, all Biden clones must be IMMEDIATELY EXECUTED.

We will set up scanners at the White House and in all government offices to ensure this happens. Anyone who obeys Biden in anything WILL ALSO BE EXECUTED. He is to be TOTALLY IMPEACHED.

He and all his followers are to be treated as WAR CRIMINALS.

ANYONE who gives their loyalty to Biden WILL BE EXECUTED. HE IS A WAR CRIMINAL.
